Pune / Bengaluru • +91-8018136097 • saikiran.biswal@outlook.com • [linkedin.com/in/sai-kiran-biswal](https://www.linkedin.com/in/sai-kiran-biswal) • [Portfolio](#)

PROFESSIONAL SUMMARY

Enterprise SaaS Product & Solution Consultant with ~5 years across CX, digital banking and finance-automation SaaS, and an MBA from XIMB. I translate complex client workflows into configurable product scope, solution designs and delivery-ready roadmaps, from discovery through enterprise rollout in multi-stakeholder environments.

SKILLS & EXPERTISE

Product & Solution: Product Discovery · PRDs & User Stories · Roadmap Prioritization · Solution Architecture · Backlog Grooming · UAT
Domain Workflows: I2C · AR Automation · Collections Lifecycle · Digital Banking (Onboarding, Lending) · Customer 360 · VoC / Journey Analytics
Commercial Solutioning: RFP Responses · Account Solutioning · Client Workshops · Solution Design
Systems & Integrations: ERP Integrations · Data Mapping · Workflow Orchestration · Configurable SaaS · Exception Handling
Delivery & Tools: Agile/Scrum · CSPO® · Stakeholder Management · Release Readiness · JIRA · Confluence · Azure DevOps · SQL · Power BI

EDUCATION

MBA, Business Management · Xavier Institute of Management Bhubaneswar (XIMB) 2022 – 2024
B.Tech · Veer Surendra Sai University of Technology (VSSUT), Burla 2014 – 2018

PROFESSIONAL EXPERIENCE

Product Consultant, Collections Cloud, Solution Design & Product Alignment · HighRadius Jun 2025 – Present

- Defined epics, user stories and acceptance criteria for I2C workflow changes across enterprise Collections Cloud programs.
- Authored PRDs and user stories for Collections Cloud workflows across cash application, dispute management and dunning automation.
- Ran discovery with AR managers and collections analysts, shaping Collections Cloud features shipped across enterprise accounts.
- Aligned engineering, QA and finance stakeholders in a complex post-merger I2C rollout, resolving data, integration and sign-off blockers.

Product Manager, Digital Banking SaaS & Solution Architecture · Metal Power Analytical Feb 2025 – May 2025

- Managed product scope for sales-automation, converting lead-to-order stages into actionable PRDs, user stories, and modular configuration.
- Architected sales-pipeline automation covering lead intake, qualification, and dunning follow-up cadences, eliminating manual workflow interventions.
- Orchestrated CRM data-automation by defining complex mapping and validation rules to ensure high-fidelity pipeline analytics and reporting.

Product Owner, Digital Banking SaaS & Solution Architecture · Intellect Design Arena May 2024 – Jan 2025

- Owned backlog and product scope for onboarding, family banking and loan-origination workflows on a configurable digital banking platform.
- Translated RFP responses and client requirements into banking-SaaS solution designs and delivery roadmaps across enterprise and mid-market accounts.
- Led client discovery across 3–4 enterprise and 6–7 mid-market banking accounts, validating requirements and product-fit gaps.

Business Consultant (Intern), Digital Banking Transformation · Tata Consultancy Services Apr – Jun 2023

- Mapped current- and future-state banking workflows and contributed BRD inputs for a retail & corporate banking transformation.

Senior Product Analyst, CX SaaS & Customer 360 · Etech Global Services Dec 2020 – May 2022

- Built Customer 360 analytics to surface product-friction patterns and support prioritization across enterprise CX accounts.
- Designed VoC and journey-analytics programs to close feedback loops, analyze drop-offs and prioritize CX workflow improvements.

Product Analyst, Digital Banking / Workflow Automation · DIATOZ Oct 2019 – Dec 2020

- Built BDD-based regression coverage for banking onboarding, transaction and servicing workflows with scheduled stakeholder reporting.

KEY PROJECTS

Post-Merger Invoice-to-Cash Transformation, Fortune 500 OEM Distributor · Collections Cloud

- Led delivery for a post-merger I2C transformation across 300+ branches and 19 ERP instances, from current-state assessment to production handover.
- Program delivered ~35% lower cost-to-collect and ~6-day DSO improvement against the pre-transformation baseline.
- Shipped Customer Legal Entity Tagging (reduced AR misclassification, no ERP change), Email Inbox 2.0 and Auto PTP / Draft / Send cadences.

STP Onboarding & Loan Origination Journeys, Retail & SME Banking · Intellect DEP

- Designed Retail and SME loan-origination journeys across application states, decision triggers and integration handoffs (web + mobile).
- Defined STP onboarding architecture across KYC, document capture, decisioning, exception states and fallback paths.
